**How to make Preferred List of classes for Registration in WebAdvisor:**

- When logged in, click “Register for Classes” (under “Registration”) rather than just searching.
- Then, look under “Search and Register for Sections” to find classes you want to take.
- Next, tag a course you’re interested in and submit – then it should be added onto your preferred list.\*

Once you have made a preferred list, at your assigned registration time, click “My Preferred List...” then select **register** on each of the pull-down tabs and **submit** (if there are seats open in the class), then you’re good to go!

\*This process is just like filling an online shopping cart or making a wish list or selecting favorites on other websites. You have to be logged in so it remembers you. The actual registration later is like checking out and seeing your receipt.
