

Another storm to greet us this winter! Hope this is one of the last ones and that sunshine and Spring weather is on the way. Grab something warm to drink and read on.

As we are wrapping up the 2022-2023 application cycle we are focusing in on identifying and connecting with students interested in applying for the 2023-2024 cycle. On **Thursday, March 2nd @ 3-4pm** is the **Personal Statement Workshop** If you are planning to apply to a pre-health graduate program this 2023-2024 cycle or are a graduating Senior planning to apply after a GAP year, we would encourage you to attend. [RSVP here](#) to attend or get the information.

Podcast #47: MD and DO current applicant Tyra Banks '21, offers advice & tips on the application process. She talks through the similarities and differences between the applications as well as her personal statement and her interview experience. Listen [HERE](#)

Heather & Heidi
Health Professions Specialists

MCAT July-September test dates open to schedule starting today, Wednesday, Feb. 22nd @ 12pm Eastern time. You will be able to schedule for all available dates in March-September through the rest of testing year.

If you plan on registering on Feb. 22, please keep reading for more information.

Understand How the Waiting Room Works

When the MCAT Registration System opens, we have a virtual waiting room activated that will show your place in line and include an estimated wait time for when it's your turn to register. It will hold your place in line, so you don't need to wait by your computer or mobile device. [Learn more about the waiting room and how it works.](#)

Two helpful hints:

1. You don't need to log in before the system officially opens. It will randomly assign a place in line to anyone who has logged in by 11:50 a.m. ET.
2. Please don't open multiple browsers, refresh your page, or share your Queue-it ID. This could result in a longer wait time..

[Read more about registration and 2023 scheduling on our website.](#)

February 2023 Testing Year Webinar Recording Available

You can access it through the [Premed Resources](#) section of our website.
