

Hope you are having a great January Interim! A few items to share for this weeks message.

[Podcast #26](#): This 10 minute episode highlights the NEW January 2022 Career Exploration opportunity for pre-health students at Capstone Clinics in Alaska. The experience is based out of Wasilla/Palmer, Alaska but students traveled to additional clinic sites in Anchorage, Eagle River and Kenai. Family medicine as well as a variety of specialty areas in medicine are shadowed during the 17 day January Interim. Listen [HERE](#)

Thanks,
Heather Banks & Heidi Selzler-Bahr

Share you Experience and Win Cash! Spring 2022 Career Expo!

If you did a Career Exploration experience this past January Interim you can participate in this opportunity to share your experience and win cash!

The event is scheduled for Thursday, February 17 from 9:30 – 10:30 in the Gustavus Campus Center upstairs hallway. This is an opportunity for students present posters of their career related experiences for the campus community and be entered into drawings for cash prizes of up to \$300!

Register to present [HERE](#).

Find directions on how to prepare your poster presentation [HERE](#).

If you have questions about this event, email Cynthia at cfavre@gustavus.edu.

MN Private Colleges Job and Internship Fair is Thursday, February 24 at the Minneapolis Convention Center. See on Handshake [HERE](#). Employers attending the Fair may be found at: <https://www.mnpcfair.org/>

There is also a **virtual edition of this Fair on March 1**, find info on that at: https://gustavus.joinhandshake.com/events/933879/share_preview

Registration for both events is required. Both are Free.

Des Moines University's three week [Health P.A.S.S. Program](#) is a great way to prepare for and enhance your application for medical or health professions school.

Deadline February 1st, Apply [HERE](#)

GRE/MCAT Prep & Interview Prep

Prep for medical/health professions school and gain confidence through presentations, mock interviews, and GRE/MCAT information.

Shadowing

Shadow physicians, physical therapists and physician assistants in the on-campus clinic.

Cultural Competency Course & Certificate

Earn a certificate and conduct research based on a cultural competency course. Research is based on the Diversity Health Series.

Graduate Level Lectures

Learn from graduate-level lectures and presentations in four clinical areas: osteopathic medicine, podiatric medicine, physical therapy and physician assistant studies.

Hands-On Experiences

Enjoy hands-on experiences in state-of-the-art facilities, including simulations with life-like medical mannequins and lab activities to test your casting, suturing and surgery skills.

Meet with Experts

Receive guidance from student mentors, faculty, admission staff and more.
