Medical Amnesty Policy

The College is concerned about the physical and emotional wellbeing of all students. The College also recognizes that there may be alcohol or other drug-related medical or safety emergencies in which the potential for disciplinary action could act as a deterrent to students who want to seek assistance for themselves or others. The Medical Amnesty Policy is designed to enable dangerously intoxicated or impaired Gustavus students to receive the professional medical treatment they need.

When one or more students aid an intoxicated or impaired Gustavus student by contacting Campus Safety, Residential Life or other appropriate College staff for assistance, and reference the policy, neither the impaired individual nor the student(s) reporting the emergency will be subject to formal disciplinary action for the consumption or possession of alcohol or other drugs. The policy is thus invoked by taking action to notify College staff regarding a student in need of assistance. In rare circumstances, such as cases where other, more serious, violations occur, students may be subject to the student conduct process for those additional violations. Examples of this include, but are not limited to, physical abuse, verbal or physical harassment, disorderly conduct or major property damage.

Impaired individuals who are eligible for medical amnesty will not receive a conduct record for the incident. In lieu of disciplinary action, the student will be required to meet with the Substance Use Specialist to discuss the incident and participate in one session of alcohol education. If a student does not complete these requirements, he or she will be subject to the formal disciplinary process.

ALCOHOL & DRUG EDUCATION PROGRAMS

Partying Smart, Marijuana 101: These online modules provide basic knowledge, awareness and attitude assessments for student with first time, lower-level alcohol or marijuana offenses.

ACES Workshop: ACES stands for Alcohol & Chemical Education for Students; a two-hour educational workshop facilitated by the Peer Assistants.

Alternatives Workshops (Alternatives Youth Diversion Education Program): A peer group-based curriculum with accompanying workbook that meets for a total of four or ten hours, depending on sanction. The program is designed to provide facts, tools and support for students dealing with alcohol and other drug-related violations. Individuals learn personal responsibility and practice making positive, long-lasting behavior changes that will lead to better choices in the future.

Work Hours: Students work with a staff member from the Dean of Students Office to be assigned a work location for completion of hours. A time log is kept and turned in to the Dean’s Office when required time is completed.

Mentor Assignment: Students are asked to develop an academic, co-curricular and personal goals with the support of a mentor. Students select a mentor from a list of College employees who volunteer with this program. They meet a minimum of four times over the course of six weeks, creating an action plan based on the student’s goals.

Meetings with Substance Use Specialist: Students meet with the Substance Use Specialist who develops recommendations which may include a case management plan. Examples of recommendations could be completing and paying for a chemical use assessment ($25), educational workshops, additional one on one accountability meetings, outpatient treatment or other components. Together you will build a plan that will support you as a healthy, successful member of our Gustavus community.

Explanation of Typical Sanctions

Disciplinary Censure: The serious nature of the specific violation or existence of prior violations merit deep concern by the College. Students sanctioned with Disciplinary Censure should understand that in most cases, future violations will result minimally in Disciplinary Probation.

Disciplinary Probation: This is the most serious form of behavior-related sanction which can be imposed short of suspension. The individual is considered to be “not in good standing with the Institution” for a determined period of time. Students on Disciplinary Probation will be prohibited from registering for or participating in off-campus study, travel courses, internships, career exploration, and off-campus independent studies. They may be prohibited from representing the College in any activity (e.g., athletic teams, choirs, bands, ensembles, debate, etc.), performance, or presentation. The College reserves the right to remove a student on disciplinary probation from a course or program if it deems such action to be in the best interest of the student, the College, or the program/course.

Suspension: Termination of student status for a definite period of time. The conditions of readmission shall be stated in the order of suspension.

Expulsion: Permanent termination of student status. The fact of expulsion shall become part of the student’s permanent academic record at the College and remain so.

In the case of Censure, Probation, Suspension and Expulsion, the individual’s status with the College is in jeopardy and therefore parents are notified, to the extent allowable under state and federal law. A student’s academic advisor and coach (if applicable) are also notified.

Additional options for disciplinary sanctions include but are not limited to reading and writing assignments, monetary fines, additional educational programming, residence hall relocation, and referral to on- or off-campus resources.

The College has adopted guidelines for the adjudication of alcohol offenses:
Sanctions resulting from Alcohol Violations are cumulative over the course of a student's enrollment.
Students hosting non-Gustavus guests are responsible for ensuring their guests' compliance with all College policies.
* Non-cooperation during confrontation could result in increased sanctions.
