

Managing Your Summer Grant

Training Outcomes

This “Managing Your Summer Grant” information session will provide you with details on how to manage the supervisor payroll process.

Upon completion of training, you will:

- ▶ Be aware of updates in the Summer Employment Process for 2021
- ▶ Understand the terms of the Supervisor and Employment Agreement
- ▶ Know when a student employee is required to complete RCR training
- ▶ Be aware of deadlines for employee hour entry and supervisor approval
- ▶ Learn how to manage student employee payroll hour entry
- ▶ Be better able to manage student employee scheduling to eliminate overtime hours
- ▶ Understand how to track student employee hours and budget
- ▶ Know where to obtain account balance information

What is new for 2021?

- ▶ **Required Supervisor Training**

All supervisors must complete this required training and quiz by **May 28, 2021** or their student will not be set up to work.

- ▶ **2021 Student Hourly Rate Change:**

The hourly student research rate has been adjusted to **\$13.00** for 2021. In previous years, students receiving grant-funded housing support were paid a stipend in early August. Students are required to pay their housing bills on a monthly basis, which does not align with a one-time stipend payment. The increased hourly wage will provide additional funds in each paycheck to enable students to pay for living expenses on and off campus. This base rate should be used for all Summer Research Employment and Supervisor Agreements.

- ▶ **Employment Forms**

Completed *Summer Research Employment and Supervisor Agreements* and other forms should be emailed to Sarah Peterson in Research and Sponsored Programs (speterson@gustavus.edu) by **April 30, 2021**.

Student Research Start Dates

- ▶ **May 17 through May 31, 2021**

- ▶ Externally funded grants can begin May 17. Prior approval from the RSP office **is required** for all other funding sources wanting to begin during this time frame.

- ▶ **June 1 through August 31, 2021**

- ▶ Students working on internally funded (Endowments, Johnson-Peterson, FYRE, RSC, and Presidential) projects can begin working.

Hourly Rate Calculation

Hourly Rate Calculation:

Hourly summer student research rate: \$10.75

2021 weekly housing rate: \$90.00

Housing rate per hour rate equivalent (based on 40 hour week): \$2.25/hour

Revised rolled-up hourly **base rate**: $\$10.75 + \$2.25 = \mathbf{\$13.00}$

By signing the *Summer Employee and Supervisor Agreement* you and your student have agreed to the following terms:

1. Summer employee will be paid on the bi-weekly payroll. Please submit your time through WebAdvisor by 10:00 a.m. on the Monday prior to the Friday payday (first deadline is Monday, June 14, 2021).
2. Supervisor must approve student hours by the bi-weekly deadline.
3. If an employee will be absent from work, he/she must notify the supervisor as far in advance as possible.
4. Summer employee may not work more than 40 hours per week during the summer without prior approval.
5. Summer employee may have more than one on-campus job during the summer but may not work more than 40 total hours per week without prior approval.

Summer Employee and Supervisor Agreement terms continued . . .

- If a student has **not** been previously employed by Gustavus the following forms are required: I9, W4, background check, and direct deposit and must be complete and on file before they begin summer employment.
 - **You and your student will be notified if they are missing any of the required forms.**
- If the position is paid from government funds (local, state, federal), I agree to abide by the Gustavus Responsible Conduct of Research Policy and complete the mandatory training: <https://gustavus.edu/research/responsibleconduct.php>.
 - **Students must complete the online CITI training prior to attending the “In-Person” Google Meet RCR training.**
 - **The next “In-person” RCR training for the summer is **TBD**. If your student misses the training, you will be notified.**
 - **Lab safety training coming soon.**
 - **If your student misses a required training, they cannot begin work.**
- **Remind your students:** As a summer employee of Gustavus Adolphus College, I understand that I may have access to Gustavus’s Confidential Information. I agree as a condition of employment not to disclose any confidential information.

Tips on meeting payroll deadlines:

- Encourage students to enter hours each day that they work to provide an accurate accounting of hours worked. The hours entered through WebAdvisor should represent the actual hours worked.
- Communicate with your student employee in advance of the payroll entry deadline. Send students an email reminder on **Friday** morning or afternoon before the upcoming Monday payroll deadline.
- Review student hours on Monday morning in advance of the noon approval deadline. Allow enough time to resolve questions that may arise.

Key points on entering time:

- Time is entered in hours or fractions of hours. If you worked from 8:00 am until 10:15 am, this was 2 hours and 15 minutes or 2.25 hours. This would be entered as 2.25
- To calculate minutes into a fraction of an hour, divide the minutes by 60.
 - For example, 48 minutes / 60 = .8
- Common fractions of an hour:
 - 15 minutes = .25 30 minutes = .50 45 minutes = .75
- Enter time for each day worked. The hours entered must not exceed 40 hours within a single week.
- Overtime is automatically calculated and will display on the final confirmation display. Any regular hours that exceed 40 for a single week will be considered overtime.

Review and Approval of Student Employee Hours

- ▶ The next two slides illustrate the Payroll Time Approval Screens.
- ▶ If you have more than one student, select the first one you want to review by clicking the REVIEW ENTRY box next to the student name and click SUBMIT. Complete the next steps for each student employee that you supervise.
- ▶ Your student should have entered hours for each day that they worked. Review each entry and compare it to the hours that your student was scheduled for.
- ▶ If your student has checked the box and submitted hours – you'll see **YES** below the hours. **NO** indicates that the student has not completed the time entry process and still has the option to make changes.
- ▶ If your student has not completed the process and you notice missing hours, check with your student before approving hours. They should complete the process.
- ▶ If your student completed the process and you agree with the hours that your student entered, go to the Supervisor Decision and choose **APPROVE** from the pull down menu. Once complete, your student should receive an email message that their hours were approved.
- ▶ If your student completed the process and you notice that hours are entered incorrectly, you should:
 - ▶ Make the necessary adjustments to student hours worked.
 - ▶ Choose APPROVE from the pull down menu.
 - ▶ Send your student an email noting what you changed and why.
 - ▶ Do not use the REJECT option in the Supervisor Decision. This will delay the payroll process and your student may miss getting paid.

Summer employee may not work more than 40 hours per week during the summer without prior approval.

- As a general rule, students should not exceed 40 hours per week. If overtime hours cannot be avoided call Sarah Bridges (x7049) to explain the situation and obtain permission.
- Overtime hours must have **prior** approval from Sarah Bridges in advance of student working more than 40 hours per week.

How will overtime affect my budget?

- Grant budgets allow for a total dollar amount to go toward wages. Overtime is paid at time and a half, so your grant funds will not go as far. A student will not be able to work as many hours as was originally budgeted.

Summer employee may have more than one on-campus job during the summer but may not work more than 40 total hours per week without prior approval.

- Students need to communicate with both supervisors that they are working more than one on-campus job.
- The student and two supervisors will need to coordinate schedules and be sure to stay within 40 hours per week between the two positions.
- Supervisors will only be able to view the WebAdvisor Time Entry for the student that they supervise.

I approved my student's timecard and now they say that they forgot to enter hours on one of the days in the pay period. What should I do now?

- If the student submitted hours and the supervisor has not yet approved the hours, the student's hours can still be modified by the supervisor.
- Once hours have been approved by the supervisor it is too late to add the hours to the current payroll. The student must complete a *Missed Hours – Previous Payroll* form, which requires a supervisor's signature. This form is available on the Gustavus Finance Office website:

https://gustavus.edu/finance/concertFiles/media/Missed_Hours_Form.pdf

- Completed forms should be returned to either Renae Stierlen or Barb Lundgren in the Finance Office. The missed hours will be added to the next payroll cycle.

How do I calculate the number of hours available for my student to work over the summer?

The Summer Employment and Supervisor Agreement was completed with the number of weeks approved for work, hourly pay rate, and weekly hours contracted for work.

You should schedule your student to stay within the total hours indicated on the employment agreement.

Example: You have \$5,180 for summer student wages. A student has agreed to work 40 hours per week, for 10 weeks, at a rate of \$13.00 per hour. Your student can work up to 400 hours.

How do I monitor the total hours worked?

As a supervisor, you are responsible for monitoring the number of hours that your student works over the summer. When you approve hours on WebAdvisor make a note of how many hours your student worked for each payroll. Track the total hours for each payroll and subtract this from the total summer hours available.

Both you and your student have the ability to view time entry histories in WebAdvisor. Ask your student for a summary of their hours.

How do my students pay their monthly on-campus housing bill?

- **NEW 2021:** Students living on campus between May 17 and May 31, 2021 will be charged the \$90.00 weekly housing rate regardless if they are working.
- The hourly student research rate has been adjusted to \$13.00 for 2021. The increased hourly wage will provide additional funds in each paycheck to enable students to pay for living expenses on and off campus.
- Charges for on-campus housing are calculated at \$90.00 per week and reported to student accounts by Residential Life on approximately July 1, August 1, and September 1. Housing charges will be charged monthly to the student's account.
- It is the student's responsibility to make payments to Student Accounts for their housing charges. **Please remind students that they are responsible for paying their own summer housing bill.**

How do I know my remaining budget balance? How can I keep track of this?

Depending on the type of grant, you can monitor account balances in one of the following ways:

- Internal grants such as Presidential Faculty-Student Collaboration grants can be monitored with the monthly *Balance to Actuals* statement from the Finance Office. These statements will be sent monthly via campus mail. **Note: this may not be the most up to date version of your balance by the time you receive the report.**

Continued . . . How do I know my remaining budget balance? How can I keep track of this?

- **Check in with us (Sarah Peterson x6514, Megan Fillbrandt x6521, or Sarah Bridges x7049), we can see your account or request a report for you. We can also determine whether or not expenses have posted to your account.**
- External grants can be monitored in WebAdvisor. Payroll postings will take place on a bi-weekly basis. All other budget postings (such as lab supplies) will happen on a monthly basis after postings are complete (typically around the 11th or 12th of the month).
- During the summer some postings are delayed. For example, benefits and indirect cost postings will not happen until the end of summer. **Do not** rely on your budget balance as the amount of money you have remaining to spend.
- If you need assistance, please ask us. We are here to help!
