Published regularly by the Office of Corporate and Foundation Relations (CFR), *Grant Information*, a.k.a. the Blue Sheet, is an electronic newsletter that provides information on funding opportunities for faculty and administrators. This first issue of the academic year highlights grant programs with deadlines primarily from November through January.

Grantseekers are also encouraged to visit the [Deadlines – Fall 2006](#) page for an overview of all grant opportunities and their deadlines, including those from the [Spring 2006](#) issue. In those instances where deadlines are not yet set we will update that information as it becomes available.

Though the research and fellowships section lists many opportunities, it is by no means intended to be comprehensive. There are many other programs that can be discovered through individual prospect research. For information on accessing these other opportunities, please contact Lisa Wojcik @ x7045 or lwojcik@gustavus.edu.

Faculty and administrators interested in learning more about any of these or other opportunities, or in developing a proposal, should contact Bob Weisenfeld at x7049 or bweis@gustavus.edu.

Grant Information is one of the resources CFR provides faculty and administrators. For information about other grantseeking-related information and services offered by CFR, please visit [http://www.gustavus.edu/cfrelations/](http://www.gustavus.edu/cfrelations/).
GOVERNMENT OPPORTUNITIES

COUNCIL FOR INTERNATIONAL EXCHANGE OF SCHOLARS (CIES)
Fulbright Senior Specialist Program
Deadline: Ongoing (See http://www.cies.org/specialists/ss_overview_PR.htm#review for more information.)

The purpose of the Fulbright Senior Specialist Program is to provide short-term Fulbright grants of two to six weeks (although it will make use of serial grants if deemed necessary) for U.S. faculty to carry out scholarly activities abroad. Grants awarded will include travel and per diem plus a $200 per day honorarium. The host institution will cover per diem costs, which are in-country costs for lodging, meals and in-country transportation. For additional information, please see http://www.cies.org/specialists/.

MINNESOTA HUMANITIES COMMISSION (MHC)
Project Grants
Deadline: Ongoing

Project Grants are intended for one-time short-term events or projects and come in three different sizes. General grants provide $1,000 to $2,000 for multi-site projects, exhibitions, lecture/discussion series, public conferences, and other large-scale humanities projects. A limited number of $3,000 grants are available for priority projects for minority organizations, Greater Minnesota organizations, and multi-site projects serving hard-to-reach audiences. General grant applications are accepted throughout the year, but must be submitted at least eight weeks prior to the beginning of a project. Small grants provide from $500 to $1,000 for multi-speaker programs, panel discussions, pilot projects, and small-scale single-site projects. Small grant applications are accepted throughout the year and must be submitted at least six weeks prior to the beginning of a project. Mini-grants provide up to $500 for funding small programs, especially speaker programs. Applications may be submitted at any time during the year, but at least four weeks prior to the program date. For more information on any of these project grants, please see http://www.minnesotahumanities.org/Grants/project.htm.

NATIONAL ENDOWMENT FOR THE HUMANITIES
In addition to the grant programs noted below, the NEH We the People initiative provides support for the study of American institutions, culture and history. Applications are encouraged that explore significant events and themes in America’s history and culture and that advance knowledge of the principles that define the U.S. NEH will accept proposals designated as We the People projects to all NEH programs according to their respective deadlines. For more information, please see http://www.wethepeople.gov/.

Collaborative Research Grants*
Deadline: November 1

Collaborative Research grants support 1) original research undertaken by a team of two or more scholars or 2) research coordinated by an individual scholar that requires additional staff or resources because of its scope or complexity. Support is available for various combinations of scholars, consultants, and research assistants; project-related travel; field work; applications of information technology; and technical support
and services. Awards are made to support full-time or part-time activities for one to three years and normally range from $25,000 to $100,000 per year. Normally NEH support will not exceed 80% of total costs for this program. For more information, please see http://www.neh.gov/grants/guidelines/collaborative.html.

*Because there is an institutional cost-sharing requirement, those who are interested are encouraged to contact Bob Weisenfeld (bweis@gustavus.edu or x7049).

NATIONAL INSTITUTES OF HEALTH
Academic Research Enhancement Award (AREA) Grants (R15)
Deadlines: October 25, February 25 and June 25

The National Institutes of Health (NIH) offers AREA grants in an effort to stimulate research in educational institutions that provide baccalaureate or advanced training and have not been major recipients of NIH research grant funds. These grants support small research projects in the biomedical and behavioral sciences, either for feasibility studies, pilot studies, or other small-scale programs that would provide data preliminary to a traditional research project grant or as support for an ongoing program of research. The maximum project award is $150,000 in direct costs, plus facilities and administrative (indirect) costs, and is available for a period of up to three years. For more information, see http://grants.nih.gov/grants/funding/area.htm, which includes a link to frequently asked questions.

NATIONAL SCIENCE FOUNDATION
Course Curriculum and Laboratory Improvement (CCLI)
Deadlines: Phase 2, January 10
Phase 3, January 10
Phase 1, May (tentative)

The Course, Curriculum, and Laboratory Improvement (CCLI) program seeks to improve the quality of science, technology, engineering, and mathematics (STEM) education for all undergraduate students. The program supports efforts to create new learning materials and teaching strategies, develop faculty expertise, implement educational innovations, assess learning and evaluate innovations, and conduct research on STEM teaching and learning. The program supports three types of projects representing three different phases of development, ranging from small, exploratory investigations to large comprehensive projects.

**Phase 1** projects typically address one program component and involve a limited number of students and faculty members at one academic institution. Projects with a broader scope or larger scale are acceptable. Results from Phase 1 projects are expected to be significant enough to contribute to the undergraduate STEM education knowledge base. Grant awards are for one to three years and can be up to $150,000.

**Phase 2** projects build on smaller-scale successful innovations or implementations, such as those produced by Phase 1 projects, and refine and test these on diverse users in several settings. The maximum grant award is $500,000 for three to four years.

**Phase 3** projects combine established results and mature products from several components of the cyclic model (as described in the program solicitation). Such projects involve several diverse academic institutions, often bringing different kinds of expertise to the project. Up to $2 million is available for
three to five years. There is no longer a cost-sharing requirement for any proposal submitted as a CCLI request. For more specific information please see http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf06536&org=NSF.

**Major Research Instrumentation Program (MRI)**

**Deadline: January 25**

The MRI program seeks to improve the quality and expand the scope of research and research training in science and engineering, and to foster the integration of research and education by providing instrumentation for research-intensive learning environments. This program assists in the acquisition or development of major research instrumentation that is, in general, too costly for support through other NSF programs. The maintenance and technical support associated with these instruments is also supported. Awards for instrumentation will range from $100,000 to $2 million. Proposals requesting funding at the low end of this range tend to have a higher funding rate than proposals at the high end. Proposals requesting less than $100,000 will be considered only from non-Ph.D. granting institutions, and from the disciplines of mathematical science or social, behavioral, and economic science at any eligible institution. Cost sharing is no longer required for non-Ph.D. granting institutions. Proposers may request an award period up to three years for acquisition proposals and up to five years for development proposals. For more information, please see http://www.nsf.gov/publications/pub_summ.jsp?ods_key=NSF05515&org=NSF. Please check later this fall, as there may be an updated program announcement available then, which will be noted on the above website. Note that a solicitation to this program may be submitted as a Research in Undergraduate Institutions (RUI) proposal. See below for information on the RUI program.

**Research in Undergraduate Institutions (RUI): Faculty Research Projects; Research Instrumentation Grants; and Research Opportunity Awards (ROA)**

**Deadline: Varies with program**

The Research in Undergraduate Institutions (RUI) program supports research for faculty members of predominately undergraduate institutions through the funding of 1) individual and collaborative research projects, 2) the purchase of shared-use research instrumentation, and 3) Research Opportunity Awards for work with NSF-supported investigators at other institutions. All NSF directorates participate in the RUI activity. The specific objectives of the program are to support high-quality faculty/student research; to strengthen the research environment in academic departments that are oriented primarily toward undergraduate instruction; and to promote the integration of research and education. However, the overriding purpose of RUI is the support of faculty research. The three RUI programs are described at (http://www.nsf.gov/pubs sys/ods/getpub.cfm?nsf00144). For further information on the RUI program, contact the NSF program director of the research program to which a proposal might be submitted. To locate the appropriate program officer, click on http://www.nsf.gov/staff/.

*Faculty Research Projects:* Individual faculty members or groups of collaborating investigators may submit RUI proposals for faculty research projects. Awards will usually be for a period of three years and support such expenses as summer salaries and wages, student research assistantships, fringe benefits, travel, materials and supplies, publication costs and essential equipment. This program is the most significant ongoing funding opportunity of the NSF available to faculty at predominately undergraduate colleges, and has been an ongoing source of support to Gustavus faculty and students.

*Shared Research Instrumentation and Tools Grants:* Proposals may be submitted for purchasing or
upgrading instrumentation or equipment needed for the research of several faculty members and/or for developing new instrumentation that will extend current capability in terms of sensitivity or resolution, or that will provide new or alternative techniques for detection and observation. Instrumentation/equipment requests may be for single items or multiple-component systems. Awards for shared-use major instrumentation are usually for a period of one to two years; the size of shared-use instrumentation awards depends primarily on the cost of the instrumentation (with institutional cost-sharing usually required).

*Anyone interested in this program should contact Bob Weisenfeld at x7049 or bweis@gustavus.edu.*

Faculty Research Opportunity Awards (ROAs) enable faculty members to pursue research as visiting scientists with NSF-supported investigators at other institutions. ROAs are usually funded as a supplement to the NSF grant of the host researcher who submits the application. Most frequently, ROA activities are summer experiences, but partial support of sabbaticals is sometimes provided. Potential host researchers may be identified through the search of award abstracts on the NSF web site (the award search may be found at [https://www.fastlane.nsf.gov/a6/A6Start.htm](https://www.fastlane.nsf.gov/a6/A6Start.htm)). Duration of support generally ranges from two to 12 months. ROAs are granted at the discretion of the program officer whose budget provides the funding.

Small Grants for Exploratory Research (SGER)

**Deadline: Ongoing**

Proposals for small-scale, exploratory, and high-risk research in the fields of science, engineering, and education may be submitted to individual programs. Such research is characterized as preliminary work on untested and novel ideas; ventures into emerging research ideas; or the application of new expertise or new approaches to "established" research topics. Awards are normally for one year (but may be up to two years) and may not exceed $200,000. A small fraction of especially promising SGER awards may be extended for a period of six additional months and supplemented with up to $50,000 in additional funding. NSF strongly encourages investigators to contact the NSF program(s) most germane to the proposal topic before submitting a proposal. These proposals will be subject to internal NSF merit review only. For more information, please see [http://www.nsf.gov/pubs/2004/nsf042/nsf04_2.pdf](http://www.nsf.gov/pubs/2004/nsf042/nsf04_2.pdf) (scroll down to II.D.1.).

US DEPARTMENT OF EDUCATION

Note: Although the following programs were listed in the Spring 2006 Blue Sheet, we repeat them here because of their relevance to international education. We will post specific deadlines as they are announced this fall.

International Research and Studies Program

**Deadline: November (tentatively)**

This program supports surveys, studies, and instructional materials development to improve and strengthen instruction in modern foreign languages, area studies, and other international fields to provide full understanding of the places in which foreign languages are commonly used. Types of projects may include, but are not limited to, the following: research on more effective methods of providing instruction and achieving competency in foreign languages; and developing and publishing specialized materials for use in foreign language, area studies, and other international fields or for training foreign language, area, and other international specialists. In the past, awards have ranged from $30,000 to $170,000 per year at an average of approximately $110,000 per year, with some larger annual awards for a project period of up to 36 months. After reviewing the program guidelines, if there are any questions, please contact Ed
McDermott at (202) 502-7636 or ed.mcdermott@ed.gov. For more information on last year’s round or to see a list of past recipients, please see http://www.ed.gov/programs/iegpsirs/index.html. Please check the website this fall for updated application guidelines and deadline information.

**Undergraduate International Studies and Foreign Language Program**
*Deadline: November (tentatively)*

This program awards grants to assist in planning and carrying out programs to strengthen and improve undergraduate instruction in international studies and foreign languages. Eligible activities may include, but are not limited to, the development of a global studies/international studies program that is interdisciplinary in design and establishment of internship opportunities for faculty/students in domestic and overseas settings. In the past, single institution awards have ranged from $50,000 to $90,000 per year with projects usually extending over a period of two years. A grantee is required to provide matching funds in either of the following ways: 33% of total project budget from the private sector or a combination of institutional and non-institutional funding equal to 50% of the total budget. If there are any questions after reviewing the application booklet, please contact Christine Corey at (202) 502-7629 or via email at christine.corey@ed.gov. For more information on last year’s round or for sample project abstracts, please see http://www.ed.gov/programs/iegpsugisf/index.html. Please check the website this fall for updated application guidelines and deadline information.

*Because there is an institutional cost-sharing requirement, those who are interested are encouraged to contact Bob Weisenfeld (bweis@gustavus.edu or x7049).*

**Fulbright-Hays Faculty Research Abroad Fellowship Program**
*Deadline: November (tentatively)*

This program is designed to contribute to the development and improvement of modern foreign language and area studies by providing funds to faculty to maintain and improve their area studies and language skills by conducting research abroad for periods of three to 12 months. Proposals focusing on Western Europe are not eligible. Awards usually range between $40,000 to $70,000. Please contact Amy Wilson (202-502-7689) at amy.wilson@ed.gov for assistance. For more information on last year’s round or for a summary of past grantees, see http://www.ed.gov/programs/iegpsfra/index.html. Please check the website this fall for updated application guidelines and deadline information.

**Fulbright-Hays Group Projects Abroad Program**
*Deadline: November (tentatively)*

This program supports overseas projects in training, research, and curriculum development in modern foreign languages and area studies for varying combinations of teachers, students, and faculty engaged in a common endeavor. Projects may include short-term seminars, curriculum development, group research or study, or advanced intensive language projects, and must focus on the humanities, social sciences and languages. Projects must focus on one or more of the following areas: Africa, East Asia, South Asia, Southeast Asia and the Pacific, the Western Hemisphere (Central and South America, Mexico, and the Caribbean), East Central Europe and Eurasia, and the Near East. The range of awards has been $50,000 to $90,000 with a project period of up to five to six weeks for short-term seminars, four to six weeks for curriculum development projects, three to 12 months for group research or study projects, and up to three years for advanced intensive language projects. If there are any questions after reviewing the program guidelines, please contact Lungching Chiao at (202) 502-7624 or lungching.chiao@ed.gov. For more information on last year’s round, or for sample project abstracts, see
http://www.ed.gov/programs/iegpsgpa/index.html. Please check the website this fall for updated application guidelines and deadline information.
AMERICAN ACADEMY IN ROME
The Rome Prize
Deadline: November 1

The American Academy in Rome supports independent study and advanced research in the fine arts and the humanities. Through its annual Rome Prize fellowship program, the Academy supports up to 30 individuals working in architecture; design arts; historic preservation and conservation; landscape architecture; literature; modern, medieval, ancient or renaissance Italian studies; musical composition; and visual arts. These fellowships are designed for emerging artists and for scholars in the early or middle stages of their careers and are for six months or 11 months with stipends of $10,500 and $21,000, respectively. Fellowships generally begin at the Academy in mid-September and end in mid-August. Please see http://www.aarome.org/rome_prize/prize_ovrview.htm for more information.

AMERICAN ASSOCIATION OF UNIVERSITY WOMEN (AAUW)
Post-doctoral Research Leave Fellowships & Summer/Short-term Research Publication Grants
Deadline: November 15

The AAUW offers Post-doctoral Research Leave Fellowships and Summer/Short-term Research Publication Grants. The former provides $30,000 for one year of support for women in the arts and humanities, social sciences and natural sciences. The latter provides $6,000 for eight-week summer preparation of research for publication. All applicants must have received their doctorates by the application deadline. For more information, please see http://www.aauw.org/fga/fellowships_grants/american.cfm.

AMERICAN COUNCIL ON EDUCATION (ACE)
The Fellows Program*
Deadline: November 1

The ACE Fellows Program is a leadership development program in which participants spend an extended period of time on another campus working directly with presidents and other senior leaders, observing firsthand how the institution and its leaders address strategic planning, resource allocation, development, policy, and other issues and challenges. When Fellows work on site at their host campuses, they pursue various projects that coincide with their own interests as well as those of their home and host institutions. Program costs vary depending on the type of program selection (periodic visits to another campus, year-long placement or semester-long placement). If the flexible placement option of periodic visits to another institution is selected, the nominating institution pays the $6,000 program fee and provides the fellow with a professional development budget of up to $12,000 to attend the seminars, national meetings, and Leadership Team events, and to visit other campuses. Applicants must be nominated by the president or chief academic officer of their institutions. For a Program Application Packet or more information, please see http://www.acenet.edu/programs/fellows/about.cfm.

*Because there is an institutional cost-sharing requirement, those who are interested are encouraged to
contact Bob Weisenfeld (bweis@gustavus.edu or x7049).

AMERICAN COUNCIL OF LEARNED SOCIETIES (ACLS)
Fellowships
Contemplative Practice Fellowships
Deadline: November 15

The Contemplative Practice Fellowship seeks to restore and renew the critical contribution that contemplative practices can make to the life of teaching and scholarship. Approximately 10 fellowships will be offered to support individual or collaborative research leading to the development of courses and teaching materials that integrate contemplative practices into courses. These fellowships are designed to advance scholarship in the field, to encourage recognition of the role of contemplation in the intellectual life, and to inform educational practice and enhance course design. ACLS invites proposals from the full range of disciplinary and inter-disciplinary perspectives in the arts, humanities, and humanities-related sciences and social sciences. These fellowships are intended to support scholars for developing curricula during a summer or an academic-year semester. Individual scholars, partnerships, or groups of scholars may apply, but the maximum fellowship stipend of $10,000 may not be exceeded for any one project. For more information, please go to http://www.acls.org/conprac.htm.

American Research in the Humanities in China
Deadline: November 15

This program offers the opportunity for scholars in the humanities to do research in the People's Republic of China. Grants are offered for four to 12 months of continuous research in China. This program supports doctoral level faculty to do in-depth research on China or the Chinese portion of a comparative study. The research must take place between July 1, 2007, and December 31, 2008. The maximum amount awarded is $30,000, which includes an allotment for travel, out of the ordinary living expenses, research expenses, and academic-year salary replacement. For additional information, please see http://www.acls.org/csccguid.htm#ar.

BEINECKE RARE BOOK & MANUSCRIPT LIBRARY
Yale University Visiting Fellowships
Deadline: January 15

The Beinecke Rare Book & Manuscript Library offers short-term fellowships to support visiting scholars pursuing postdoctoral or equivalent research in its collections. The fellowships support travel to and from New Haven and paid a living allowance of $3,600 per month. Fellowships, normally granted for one month, must be taken up between September 1, 2006 and May 31, 2007. Recipients are expected to be in residence during the period of their award and are encouraged to participate in the activities of Yale University. For a list of specific fellowships to be awarded, information on the Library’s collections, or application information, please visit the Library's website at http://www.library.yale.edu/beinecke/blgrdfll.htm#visit.
THE JOHN CARTER BROWN LIBRARY
Short- and Long-term Fellowships
Deadline: January 10

The John Carter Brown Library, located at Brown University, is an independently administered and funded center for advanced research in history and the humanities. The Library has a growing collection of primary historical sources pertaining to the Americas before 1825. The Library will award approximately 30 Research Fellowships for the period of June 1, 2007 – June 30, 2008. Sponsorship of research is reserved exclusively for scholars whose work is centered on the colonial history of the Americas, North and South, including all aspects of European, African, and Native American involvement. Short-Term Fellowships are available for periods of two to four months and carry a stipend of $1,800 per month. Long-Term Fellowships are for five to nine months with a stipend of $4,000 per month. The term for these fellowships will typically begin between June 1 and July 15 or between January 15 and March 15. Recipients of all fellowships are expected to relocate to Providence and to be in continuous residence for the entire term of the award. For more information on either of these fellowships, please see http://www.brown.edu/Facilities/John_Carter_Brown_Library/pages/fr_resfellow2.html.

THE BUSH FOUNDATION
Artist Fellows Program
Deadline: October/November (varies with category)

This program provides artists at any stage of their life’s work with significant financial support that enables them to explore new directions, to continue work already in progress or accomplish work not financially feasible otherwise. Fellows may decide to take time for solitary work or reflection, engage in collaborative community projects, embark on travel or research, or pursue any other activity that contributes to their lives as artists. Fellows receive $48,000 for fellowships that may last from 12 to 24 months. Grants are made in eight categories that rotate on a two-year cycle. The current cycle focuses on literature (fiction, creative nonfiction, poetry), scriptworks (for stage and screen), film/video and music composition. For more information, see http://www.bushfoundation.org/fellowships/artists_overview.asp.

FOLGER SHAKESPEARE LIBRARY
Long-term Fellowships
Deadline: November 1

The Folger Shakespeare Library is an independent research facility with the world’s largest collection of Shakespeare’s printed works as well as collections of other rare Renaissance books and manuscripts on all disciplines: history and politics, theology and exploration, and law and the arts. Candidates should be advanced scholars who have made substantial contributions in their fields and whose research projects are appropriate to the collections of the Folger. The fellowships offered for periods of six to nine months include two Mellon Post-doctoral Research Fellowships with typical awards of $50,000 and $40,000, and three National Endowment for the Humanities Fellowships, which usually carry maximum stipends of $40,000. For more information, please see http://www.folger.edu/template.cfm?cid=298.
FRIENDS OF THE PRINCETON UNIVERSITY LIBRARY
Short-term Library Research Grants
Deadline: January 15

Each year, the Friends of the Princeton University Library offer Library Research Grants to promote scholarly use of the research collections. In addition, the Program in Hellenic Studies also supports a limited number of library fellowships in Hellenic studies, and the Cotsen Children’s Library supports research in its collection on aspects of children’s books. Examples of collections include graphic arts; historic maps; numismatics (coins, paper money, medals, etc.); art and photography; and Islamic, Medieval, Renaissance and Non-Western manuscripts. Proposals should address specifically the relevance to the proposed research of unique resources found in the Princeton University Library collections. Prospective grantees are urged to consult the Library’s home page for detailed descriptions of the collections, especially those in the Rare Books and Special Collections Department, and for the names of curators and reference staff. Applicants should have specific Princeton resources in mind—not simply a desire to make use of a major research library—as they prepare their proposals. These grants, which have a value of up to $2,500 each, are meant to help defray expenses incurred in traveling to and residing in Princeton during the tenure of the grant. The length of the fellowship will depend on the applicant’s research proposal, but is ordinarily one month, tenable from May 2007 to April 2008. For more information or to see a list of past recipients, please see http://www.princeton.edu/rbsc/fellowships/f_ships.html.

HOUGHTON LIBRARY
Short-term Visiting Fellowships
Deadline: January 19

Houghton Library is the principal rare book and manuscript library of Harvard College. The Library's holdings are particularly strong in the following areas: European, English, American, and South-American literature, including the country's pre-eminent collection of American literary manuscripts; philosophy; religion; history of science; music; printing and graphic arts; and dance and theatre. Twelve short-term fellowships are available to assist scholars who must travel to work within the Library's collections. Each fellow is expected to be in residence at Harvard for at least one month during the period from July 2007 through June 2008; the total stipend for each fellowship is $3,000. For a listing of fellowships or for more information, please see http://hcl.harvard.edu/libraries/houghton/public_programs.html#fellowships.

NATIONAL GEOGRAPHIC SOCIETY
Grants for Scientific Field Research and Exploration
Deadline: Ongoing for pre-applications (at least ten months prior to anticipated field dates)

The National Geographic Society provides funds for one year of scientific field research and exploration. All proposed projects must have a geographical dimension and relevance to other scientific fields, and be of broad scientific interest. Applications are generally limited to the following disciplines: anthropology, archaeology, astronomy, biology, botany, geography, geology, oceanography, paleontology and zoology. While grant amounts vary greatly, most range from $15,000 to $20,000 for one-year’s research, and tend to act as seed money. Approximately 250 grants are given per year. The deadline for pre-applications is ongoing; however, a pre-application must be submitted online at least 10 months prior to anticipated field dates. For more information, please visit http://www.nationalgeographic.com/research/grant/rg1.html.
GEORGE A. AND ELIZA HOWARD FOUNDATION
Deadline: October 17 (nominations); November 29 (full proposals)

The George A. and Eliza Howard Foundation awards a limited number of fellowships each year for independent projects in fields selected on a rotational basis. This year’s fellowships in Visual Arts, Media Studies and the History of Art and Architecture support people in the middle stages of their careers whose work to date is evidence of their promise and achievement. Applicants should have a significant record of publication beyond the dissertation and should generally have the rank of assistant or associate professor or their non-academic equivalents. Stipends for one year are normally $25,000 and are intended to augment paid sabbatical leaves. There are no residency requirements. Potential applicants must be nominated by their institutions. To print a copy of the required nomination form or for more information, please visit http://www.brown.edu/Divisions/Graduate_School/howard/.

THE HUNTINGTON LIBRARY, ART COLLECTIONS AND BOTANICAL GARDENS
2007-2008 Fellowships: Short- and Long-term Awards
Deadline: December 15

The Huntington is an independent research center with holdings in British and American history, literature, art history, and the history of science and medicine, with collections ranging from the 11th century to the present. Within these general fields there are many areas of special strength including: Middle Ages, Renaissance, 19th and 20th century literature, history of science, British drama, Colonial America, American Civil War, Western America, and California. The Art Collections contain notable British and American paintings, fine prints, photographs, and an art reference library. The Huntington will award over 100 fellowships for the academic year 2007-2008. Recipients are expected to be in continuous residence at the Huntington and to participate in and make a contribution to its intellectual life. Stipends range from around $2,000/month for projects of one to five months to up to $40,000 for projects ranging from four to 12 months, depending on the award. Please see http://www.huntington.org/ResearchDiv/Fellowships.html for a listing of possible fellowships or for more information.

THE SCHOOL OF HISTORICAL STUDIES
INSTITUTE FOR ADVANCED STUDY
Resident Fellowships for Assistant Professors
Deadline: November 15

The School of Historical Studies at the Institute for Advanced Study in Princeton, New Jersey, offers Mellon Fellowships for Assistant Professors to support scholarly research and writing in one of the following areas: Greek and Roman civilization; the history of Europe; the Islamic world; East Asian studies; the history of art; and modern international relations. Recipients will have a year-long membership at the Institute for Advanced Study and appointments are from July 1 through June 30 with the option of staying through the second summer until August 15. The stipend will match the combined salary and benefits at the recipient’s home institution at the time of application. On-line applications are accepted. For more information, please see http://www.hs.ias.edu/mellon.htm. Please check the website for updated deadline and application information.
THE MACDOWELL COLONY
Residencies
Deadlines: January 15, April 15 and September 15

Writers, composers, visual artists, photographers, printmakers, filmmakers, architects, interdisciplinary artists and those collaborating on creative works visit The MacDowell Colony in Peterborough, New Hampshire, each year from all parts of the U.S. and abroad to take advantage of uninterrupted time and seclusion in which to work and to enjoy the experience of living in a community of exceptional artists. Colonists receive room, board, and the exclusive use of a studio. There are no residency fees. The costs of travel to and from New Hampshire may be covered in full or in part by travel reimbursement grants from one of two travel assistance funds. Financial aid for writers is also available. Applications for all financial assistance are mailed upon acceptance for residency. The maximum length of residency is two months; an average stay is four weeks. Artists should apply approximately five to eight months before an anticipated residency. For more information, see http://www.macdowellcolony.org/apply.html.

PRINCETON UNIVERSITY CENTER FOR HUMAN VALUES
Laurance S. Rockefeller Visiting Fellowships*
Deadline: November 1

Each year the Center supports outstanding scholars and teachers who are interested in devoting a year in residence at Princeton to writing about ethics and human values. A central activity for the fellows is participation with University Center faculty members in a Fellows Seminar, which discusses participants’ work-in-progress. Fellows also participate in other activities of the Center, including seminars, colloquia, and public lectures. Fellows normally receive stipends of up to one-half their academic year salaries (not exceeding a maximum stipend, which is set each fall) for the fellowship period, which extends from September 1 to July 1. The fellow’s home institution is expected to provide at least half of the fellow’s salary plus all benefits. For more information please see http://www.princeton.edu/~uchv/LSR_Fellowships.html.

*Because there is an institutional cost-sharing requirement, those who are interested are encouraged to contact Bob Weisenfeld (bweis@gustavus.edu or x7049).

RADCLIFFE INSTITUTE FOR ADVANCED STUDY AT HARVARD UNIVERSITY
2007-2008 Fellowships
Deadlines: October 2 for Creative Artists, Humanists and Social Scientists
December 4 for Natural Scientists and Mathematicians

The mission of the Radcliffe Institute is to create an academic community where individuals can pursue advanced work in any of the academic disciplines, professions or creative arts. Radcliffe Institute fellowships are designed to support scholars, scientists, artists, and writers of exceptional promise and demonstrated accomplishment who wish to pursue work in academic and professional fields and in the creative arts. Stipends are funded up to $60,000 for one year with additional funds for project expenses. Fellows receive office or studio space and access to libraries and other resources of Harvard University. Residence in the Boston area and participation in the Institute community are required during the fellowship year, which extends from September 2007 through June 30, 2008. For more information and an application or to see a list of past fellows, please see
SMITHSONIAN INSTITUTION
Postdoctoral and Senior Fellowships
Deadline: January 15

The Smithsonian Institution Fellowship Program annually offers funding for individuals to conduct research in a discipline pursued at the Smithsonian. Fellowships support research at all Smithsonian facilities or field stations except the Astrophysical Observatory (see separate listing on the website). Projects that broaden and diversify the research conducted within these disciplines are encouraged. Fellows are expected to spend most of their tenure in residence except when arrangements are made for periods of fieldwork or research travel. Postdoctoral Fellowships are available for scholars who have held the doctoral degree or equivalent for fewer than seven years; Senior Fellowships are available for scholars who have held the doctoral degree or equivalent for more than seven years. The term for both fellowships is three to 12 months, with a stipend of $35,000 per year, which, for senior fellowships, may be matched by other sources of funding such as sabbatical pay. Earth and Planetary Sciences Senior and Postdoctoral stipends are $40,000 per year. Stipends are prorated for periods of fewer than 12 months. For a listing of possible fields of research and study, this year’s application and a listing of previous awardees, please see http://www.si.edu/ofg/Applications/SIFELL/SIFELLapp.htm. Please check the website for updated deadline and application information.

ALEXANDER VON HUMBOLDT FOUNDATION
TransCoop Programme*
Deadline: October 31 and April 30

Through the TransCoop Programme, the Foundation supports transatlantic research cooperation among German, American and/or Canadian scholars in the humanities, social sciences, economics, and law. Joint research initiatives can receive a total of up to EUR 45,000 (currently about US $59,000) each over a three-year period. Funds can be used to finance short-term research visits, special conferences and workshops, materials and equipment, printing costs, and research assistance. Each research collaboration must be matched by funds from U.S. and/or Canadian sources. For more information, please see http://www.humboldt-foundation.de/en/programme/stip_aus/transcoop.htm.

*Because there is an institutional cost-sharing requirement, those who are interested are encouraged to contact Bob Weisenfeld (bweis@gustavus.edu or x7049).
