Career Development and Mentoring

The group met with the new coordinator of the mentoring program to learn more about this initiative with the possibility of Scandinavian Studies participating in the future and the NAB helping to recruit mentors.

Semester in Sweden

The group received a report on the semester in Sweden program by the faculty lead and several student participants.

Students from Uppsala University

The group met with six students who are studying at Gustavus from Uppsala University. They will be at Gustavus for a semester or year with funding help from the Swedish Council of America.

Future Purpose

The group will discuss in May ways the group can be helpful to the college in the future. Many of the initiatives the group has worked on are either complete or cannot be moved forward due to staffing or funding.
